Fix your Vaastu without breaking a single wall.

A 180-degree body-and-space aura scan reads your home, self, or workplace against the eight directional zones, the five elements, and the Brahmasthan — locating the exact Vaastu dosha behind sleep, money, health, or morale issues. Because corrections work through direction, element rebalancing, and energy clearing rather than construction, there's no demolition, no permits, no months of disruption. You see the reading yourself, in real time. Sessions run between sunrise and sunset for directional accuracy.

OLD WAY ~~$10Ks in construction, months of disruption, no precision guarantee~~ THIS WAY **See it, correct it — no renovation**

Home Energy Test

Room-by-room Vaastu audit, dosha & geopathic-stress mapping, Brahmasthan check, directional remedies. Floor plan with true north required.

On-site · scaled to size

Personal Aura Testing

180° body aura scan, chakra assessment, nazar/negative-energy check, cross-referenced against your birth chart. Gemstone, mantra & ritual remedies.

In-person or online

Commercial / Office

Zone-by-zone assessment of entrance, cash/finance, leadership & meeting areas — for retention, revenue, and morale. Floor plan required.

On-site · scaled to size

Price on request for all three — tailored to scope

WHY THIS IS UNIQUE TO SHUBHPUJA

Vaastu-first, not aura-only
Same classical diagnosis as a traditional consultant — different correction method.

No construction, ever
Directional remedies and energy clearing only — never walls or rebuilds.

You see it yourself
Real-time 180° scan — nothing to take on faith.

Analytical, data-driven
18+ years of enterprise rigor applied to the reading and reporting.

Saumyaa is a Fortune 100 tech & strategy leader who works with CXOs across Fortune 100 organizations, and a trained Vaastu expert, astrologer, numerologist & energy healer with 18+ years of enterprise rigor behind every reading. Gold Medalist, Statistics (LSR) · MSc, Lancaster · MBA, Imperial College (top 1%). Featured in Forbes, The New York Times, LA Times, CNBC & 30+ other media outlets.

FOR YOUR HOME

Home Energy Test

What it is: A full Vaastu-based energy audit of your home, mapped against the eight directional zones and the Brahmasthan, to identify exactly where the space is out of alignment and why it's showing up as a persistent, hard-to-name issue in daily life — poor sleep, recurring arguments, financial stagnation, a home that never quite

feels settled.

The Vaastu lens: Every room is read against its ideal directional placement — the kitchen's relationship to the southeast fire zone, the bedroom's alignment with the southwest for stability, the entry's connection to the northeast for the flow of positive energy. Where a room sits against its natural element, or where a geopathic stress line crosses a space you spend hours in, the imbalance compounds over time.

WHAT'S INCLUDED

- Room-by-room walkthrough and directional (compass-based) energy mapping
- Identification of Vaastu dosha zones, geopathic stress lines, and heavy or stagnant energy pockets
- Assessment of the Brahmasthan (center of the home) and any obstructions to it
- Cleansing and rebalancing guidance using directional remedies — no construction required

WHAT I NEED FROM YOU

A floor plan or map of your home with true north marked — a builder's plan, a rough hand-drawn sketch, or even a phone photo of an existing layout works, as long as room placement and orientation are clear.

Duration	Price
Scaled to home size	On request — tailored to square footage

FOR YOU — IN-PERSON OR ONLINE

Personal Aura Testing & Energy Balancing

What it is: A specialized reading of your personal energy field and its interaction with planetary movement — identifying chakra blocks, negativity or evil eye (nazar), and the specific planetary imbalances behind unease, stuck situations, recurring bad luck, or unexplained physical strain.

The Vaastu-astrology lens: Vaastu doesn't stop at the walls of a building — the same directional and elemental principles apply to the human body and its energy field. This session pairs the aura scan with your astrological birth chart to see where planetary influences are compounding energy blocks in specific chakras, and whether an external source — inherited pattern, evil eye, or negative energy directed at you — is sitting on top of it.

WHAT'S INCLUDED

- Full 180-degree body aura scan
- Chakra-by-chakra energy assessment
- Evil eye (nazar) and negative energy check
- Cross-reference against your astrological chart to identify planetary sources of imbalance
- Personalized remedies — gemstone, mantra, directional, or ritual — based on what the reading shows

FOR YOUR WORKPLACE

Commercial / Office Energy Balancing & Vaastu Consultation

What it is: The same directional, elemental Vaastu framework applied at commercial scale — offices, retail spaces, studios, and workplaces where persistent low morale, high turnover, stalled sales, or a space that "just feels off" often trace back to the exact same root causes as a home: a Brahmasthan blocked by furniture or a stairwell, a leadership desk sitting against the wrong direction, a cash counter or entrance placed against the flow of positive energy.

The Vaastu lens: Commercial spaces carry the same eight-zone directional map as a home, but the stakes are different — a misaligned northeast (growth and opportunity) or southwest (stability and authority) doesn't just affect one family, it affects every person working in that space. This consultation reads the building the way it reads a home, but interprets the findings against business outcomes: retention, revenue, decision-making clarity, and team wellbeing.

WHAT'S INCLUDED

- Full walkthrough and zone-by-zone directional energy assessment
- Identification of stress points affecting staff, leadership, and workflow
- Assessment of key business zones — entrance, cash/finance area, leadership offices, meeting rooms — against Vaastu principles
- Vaastu-based rebalancing recommendations implementable without renovation or downtime

WHAT I NEED FROM YOU

A floor plan or map of the workspace with true north marked — an architect's plan, a facilities layout, or a simple sketch showing rooms, entrances, and key zones (leadership offices, cash/finance area, main entrance).
